**Subject:** SYTF question

**CAUTION:** External Email. Proceed Responsibly.

SYTF has been in place more than one year. In that time, youth, many over age 18, continue to be highly combative, use shanks to assault officers and other youth. They are provided WiFi, access to social media and fancy gaming systems. Instead of programs being conducive to overall 'rehabilitation', they come armed with snacks, pizzas, burritos, ball caps and T-shirts where the youth cover with gang graffiti. Where's the rehabilitative portion in that? What do victims receive? Why are these young men allowed to continue in this program after assaulting officers and other youth? When will you tell the TRUTH that SYTF is an epic FAILURE?
